WHAT'S NEW AT AHS?

We're excited to announce that we now have a Laparoscope! Dr. Brett Pendergrass will be using this amazing tool as an option for less invasive ovariectomies - an alternative to traditional ovariohysterectomies. This surgery removes only the ovaries through 2 small incisions. Recovery time is half the time of a regular ovariohysterectomy, where the uterus is also removed. Stay tuned for more information on this wonderful new option!

RESORT & SPA REMODEL!

Facility Maintenance Woman-in-Charge, Dena, has been working with our handyman, Michael to redo our floors in the kennel and add new runs to our Resort facility! We LOVE the new look! Our Resort & Spa Guest Services Assistants are SO excited to show off their new "digs"! While the Luxury Suites on the play yard side had been redone a few years ago, the rest of the kennel had not. They are in love with the new kennels that have been finished on the inside section of the kennel, and are patiently waiting on the finishing touches to the employee parking side of the Resort & Spa. We hope your pet will love it as much as we do!

Welcome Dr. Amber Talbot!

We are happy to announce that we will have a new veterinarian at Animal Hospital of Statesville in June! Dr. Amber Talbot will be joining us! She graduated from Virginia-Maryland School of Veterinary Medicine and did her externship here at Animal Hospital of Statesville. We fell in love with her right away! We know you will love her as much as we do!

Community Service Projects

This quarter's charity focus is The Piedmont Boys and Girls Club! We're collecting items for their summer camp, starting in June.

AND We are still collecting items for Food for Days. May's item is cans of Ravioli - Flip-top cans only, please! Use the QR code below to get details of both projects!
